Murdock Real Estate Group | Kokomo, IN

What is the most valuable leadership asset you would bring to the board of directors if you were selected?

One of my most valuable leadership assets is the ability to listen to the needs of others. Just like in any business, it is important to be able to set aside personal biases and listen to the issues/concerns members are having. It is equally important to be innovative and have the problem solving skills necessary to tackle those issues and come up with the necessary solutions. I believe I have the characteristics necessary to fill that role.

What are the most important priorities or initiatives the Board should be considering in the next two years?

As a member, I have been pleased overall with the association. In a real estate market that is currently changing and will continue to do so, I think it is important to continue to educate our members on those changes and put policies in place that make it easier for us to serve our clients and better educate the public.

I feel the most pressing issues facing the association are:

Changes in technology and operations. RACI has done a very good job of giving us the tools we need and I think it is important to continue to track these changes and be reactive so that our members always have the best tools available to serve our clients.

What are the most important priorities or initiatives the Board should be considering in the next two years?

Supporting our members and expanding the tools we offer them. Also keep educating them on all aspects of the business. As a Director, I also feel it is important to support our staff and remember we are very lucky to have them in our organization.

I feel the most pressing issues facing the association are:

1. The current issue with the DOJ and how it could change the way we do business as Realtors. (That isn't just our association), 2. Keeping our members engaged and involved.

Lundquist Appraisals & Real Estate Services | Wabash, IN

What is the most valuable leadership asset you would bring to the board of directors if you were selected?

Encouraging others. Dedication. Loyal. Understanding someone else's point of view. I've been told that I work well with other Realtors. Social Media Marketing/Design/Promoting. I strive to be ethical and to follow the "Golden Rule" personally and professionally. I want to represent Wabash issues to the table.

What are the most important priorities or initiatives the Board should be considering in the next two years?

1. Still keeping dues down if we can. 2. FAIR Housing/Anti-discrimination. 3. Realtor safety ie: I think we should have a Realtor self defense/gun safety class. (I will make that my goal to happen.) 4. Realtor Mental Health. - I think we should look into ideas about how to help us deal with our daily stress in healthy ways.

I feel the most pressing issues facing the association are:

1. Education/designations for FAIR Housing matters. Anti discrimination. (This is very near and dear to my heart as I have friends who are LGBT and some who are a different race than I am and I think it's absolutely horrible that they could be discriminated for just being who they are. Racism and Bigotry is just flat out ignorant ideology and behavior!) 2. Navigating thru this crazy market that is changing!
